

Full model change: 61 patterns and 292 items

Release of the “one-chain type” for controlling with a single chain

Release of the vertical blind new “Line Drape”

Released on July 4

On July 4, the Tachikawa Corporation will release a revamped version of its popular and stylish “Line Drape” vertical blind product. The “Line Drape”, with improved functionality and design, comes in 61 patterns and featuring 292 items.

Tranquility that shines in your living room: 61 patterns in 292 items

In addition to five categories, “Artemode,” “Contemporary Touch,” “Fine Natural,” “WA gokoro,” and “Material” representing a global view appealing to users’ instincts, “Plain,” “Light Shielding,” “Lace,” and “Wooden” are all available. Abundant design/texture to highlight your living room.

A number of common cloths which can be coordinated with the “Roll screen Larc”, due for release the same day, are available. Enjoy coordinating various products in your space: “Line Drape” for your sweeping living room window, and “Roll Screen” for your high and small windows.

Energy-saving (heat-shielding) slats on sale

Newly added energy-saving (heat-shielding) slats in three patterns shield sunshine, suppress increase in room temperature, and thus help save energy and power.

Renewed design of mechanical parts

The design of mechanical parts has been renewed, achieving a smart and exquisite result. The “Warm Series” (optionally available in five colors), adopting a teakwood design for the rail, will be released. This warm design optimally matches your furniture and other items.

New “One-chain Type” and “Separate Type” on sale

The “one-chain type”, featuring slats that can be opened, closed and tilted, has been added to the standard type and is ideal for unreachable high windows. A “Separate Type”, featuring easy operation thanks to a wide opening area has also gone on sale.

Free guarantee period extended from one to two years * (slats and cords: one year)
