

Full model change in eight categories including 102 patterns and 404 items

Facilitates coordination between four design categories appealing to users' instincts and featuring solid-color fabrics

Release of the "Roll Screen Larc"

Released on July 4

On July 4 (Monday), the Tachikawa Corporation will renew the lineup of its major products, "Roll Screen," available in 102 patterns and 404 items, renaming it "Roll Screen Larc" to increase applicability and widen the scope of our recommendations.

Fabrics in 102 patterns and 404 items help you enhance your interiors.

Four design categories, "Romantic Sweet," "Fine Natural," "Contemporary Touch," and "WA gokoro" represent our global view and appeal to your emotions. Each has unity in color phases, allowing you to coordinate patterns harmoniously. Furthermore, we also propose "Life Choice," featuring simple coordination with a solid fabric, "Life."

Furthermore, with our numerous common fabrics, that can be used to coordinate with "Line Drape," etc. to be released at the same time, you can enjoy combining our products in various ways in your own private space.

Energy-saving (heat-shielding) fabrics

Additional energy-saving (heat-shielding) fabrics will be released. Blocking out sunlight will suppress increase in room temperature, thus ensuring an energy-saving effect.

Renewed design of mechanical parts

Renewing the design of mechanical parts has increased functionality, allowing harmony with your space can be enhanced. As standard types, "Warm Series" and "Palette Series," are available to allow you to select your favorite parts colors and enjoy your own roll screen.

In addition, the "Roll Screen, Chain Type (External)," added to conventional chain operation, reduces the leakage of light from your windows.

"Compact Double Type" on sale

The double type, which allows a combination between a thick fabric (drape) and a thin fabric (lace), including a compact mechanical part, has been added as a "Compact Double Type" to be fitted smartly to small windows that have recently been on the increase.

Free guarantee period increased from one to two years (* fabrics, cords, and large motorized units: one year)
