

TACHIKAWA CORPORATION
Asia's Largest Exhibition for Shutters, Blinds and Doors
Participating in "R + T Asia 2014"
March 25-27 (Tue.-Thu.)

We, TACHIKAWA CORPORATION will exhibit our products at the "R+T Asia 2014" exhibition for shutters, blinds and doors to be held in Shanghai, China for three days from Tuesday, March 25, 2014.

"R+T Asia 2014" is the Asian version of the world's largest international exhibition for shutters, blinds and doors, "R+T", which is held in Stuttgart, Germany every three years. The first "R+T Asia" exhibition was held in Shanghai in 2005 and the event this year marks its 10th anniversary. About 380 companies, mostly from Asia, will participate in this exhibition. This exhibition attracts global attention and is expected to have many visitors from countries all over the world.

A wide range of products, including roller blinds, roman shades, pleated and vertical blinds, will be on show at our booth. We will also introduce highly functional and stylish venetian blinds, which eliminate the ladder cord holes in the slats as well as featuring a one-chain operation system and double-type drawing global attention. Moreover, we will globally promote the image of our TACHIKAWA brand through this exhibition as an integrated manufacturer of window covering products.

This marks the second consecutive year in which we have participated in this exhibition, helping enhance international awareness of our TACHIKAWA brand and reinforcing our sales promotion in the world market.

Outline of products exhibited by TACHIKAWA CORPORATION:

- Our booth No.: Hall E1 E1B23 (50 m²)
- Major exhibits: roller blinds, roman shades, pleated blinds, vertical blinds, venetian blinds, accordion door, motorized curtain track etc.
