TACHIKAWA PRODUCTS
TACHIKAWA CORPORATION Profile
Founded in 1938, Tachikawa Corporation is the pioneer in the production of venetian blinds, window covering products, and room partitions in Japan. There are two factories and three works in Japan, and there are business bases in 67 locations throughout the country. Products handled include interior products for the home, for the office, and for public buildings. Tachikawa also manufactures vertical blinds, roller blinds, roman shade, pleated blinds, curtain tracks, and other window coverings and interior finishings. Since its foundation, "Contributing to society through improving the living environment for inside and outside the building" is a basic management policy. Tachikawa has developed their products to gain customer confidence and satisfaction by "Creating a more comfortable living space".

TACHIKAWA TRADING CO., LTD. Profile
Founded in 1994, They at "Tachikawa Trading Co., Ltd." handle overseas transactions for Tachikawa Corporation as the parent company. We have been doing business with overseas customers for commercial projects, fabricators of window coverings, exporters, importers, designers, general contractors, etc.
